[illegible][illegible]

\*\*\* In the 1990s, the number of firms in the industry increased from 11 to 15, and the number of employees increased from 1,000 to 1,500.

The third of the three theorems is the following: Let  $f(x) = \sum_{n=0}^{\infty} a_n x^n$  be a power series with radius of convergence  $R > 0$ . Then the function  $f(x)$  is continuous on the interval  $(-R, R)$ .

The *Journal of Interpersonal Violence* is a peer-reviewed journal of research and practice in the field of interpersonal violence. The journal is published by Sage Publications, Inc. and is the primary journal of the American Society of the Human Rights.

and, therefore, the  $\beta$  parameter is not a good indicator of the degree of the nonlinearity of the system. The  $\beta$  parameter is a function of the input signal and the system parameters. The  $\beta$  parameter is a function of the input signal and the system parameters. The  $\beta$  parameter is a function of the input signal and the system parameters.
